**Subject:** FW: Priority Parcels List - Bakers Bridge To Trimble Lane  
Parcels within 600ft Bakers to Trimble Aug 17.xlsx

All,

Per our meeting with Gary Newhart this morning, attached is a table of parcels within 600 feet of any of the following features for the area between Bakers Bridge and Trimble Lane:

1. The Animas River (now digitized as a polygon)
2. The Reid Ditch
3. The Animas Consolidated Ditch – from the headgate on the Animas River to its intersection with Hermosa Creek
4. The end of Hermosa Creek – from its intersection with the Animas Consolidated Ditch to the Animas River

Included on this table is a field named “AWC” with a note indicating if the parcel is serviced by the Animas Water Company water system.

I will generate a similar list for parcels south of Trimble Lane that are within 300 feet of the river as Ryan and I continue creating a polygon that more accurately represents the river. This list will extend to the New Mexico state line. I will send this list out to the group when it is complete.

Please let me know if you have any questions.

Thanks,

Trevor Downing

Geologist
